

Huazhong Plastic Accredited as 2016 National High-tech Enterprise of Ningbo City

According to the reply letter for Guo Ke Huo Zi (国科火字) [2016] No.163 and No.168 files, issued by the National High-tech Enterprise Qualification Management Group on 16th December 2016, Ningbo Huazhong Plastic Products Co., Ltd. (hereinafter referred to as Huazhong Plastic) successfully passed the certification of high-tech enterprise and was accredited as 2016 National High-tech Enterprise of Ningbo City (Certificate No.: GR201633100171).

Science is an driving force in development. High-tech enterprises stand for those resident enterprises, who have registered for more than one year in the territory of China (not including Hong Kong, Macau and Taiwan), continuously transferring research and development to technical achievements, forming core independent intellectual property rights and conducting business activities on the aforementioned basis, within the scope of High and New Technology Areas with the Government's Primary Support.

Huazhong Plastic's accreditation as a national high-tech enterprise represents its independent intellectual property rights, technological innovation capability and high-end technology development capability have been approved the country, significantly promoting Huazhong's corporate image and its market value. As a high-tech enterprise, Huazhong Plastic enjoys a favorable tax rate of 15%, which leads the company to put more emphasis on innovation of technology, management

and service and to fully improve production, R&D and management capacity with high and new technology, economies of scale and scientific management. Committed to a corporate spirit of "be practical, share weal and woe, unite in spirit and action, share perfection" as well as an operation philosophy of "be honest, responsible, creative and willing to share", Huazhong Plastic is determined to become a leading auto body parts manufacturer in China.
